GateAccess Mobile App (iOS & Android)

Having subscribed to the FastAccess service of GateAccess.NET, a section on our mobile apps is revealed. This section allows residents to add "FastAccess Passes" to their account.

Depending on your setup within the community FastAccess passes can be read by Outdoor Barcode Scanners, iPads (using our ABDi iCMS app) & Desktop Computers (using ABDi CMS).

Adding/Editing FastAccess Passes

Residents can set a pass as "Permanent" or with an Expiration Date.

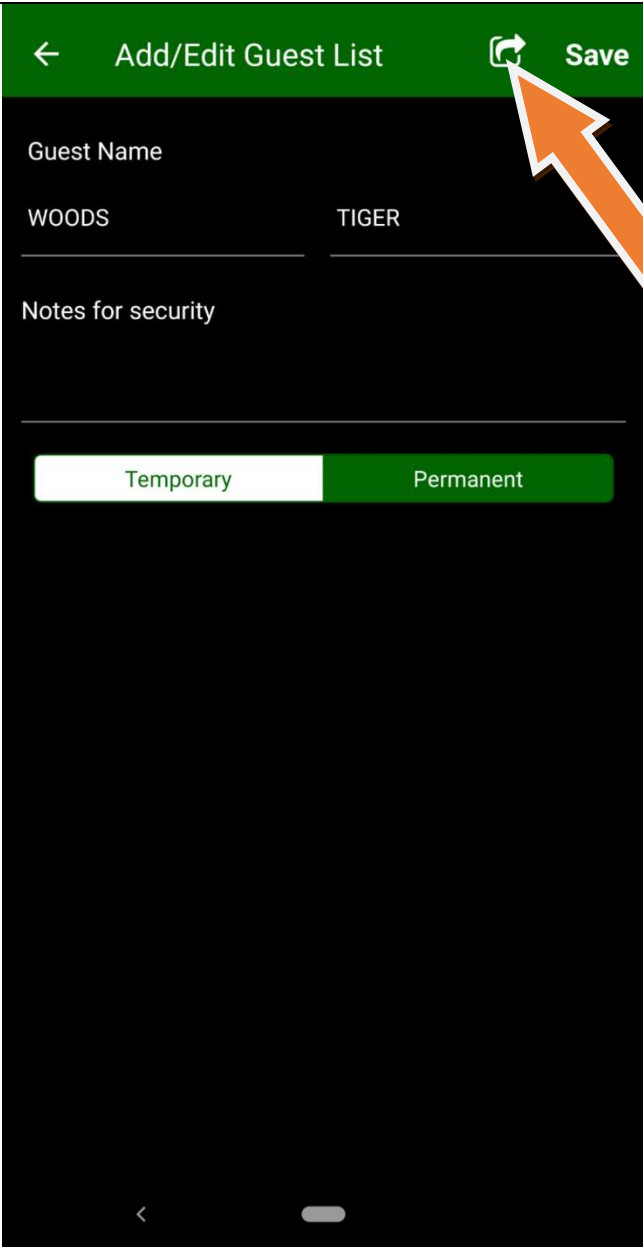

Once saved, the app will prompt for sending options.

Click the button

APPLICATIONS BY DESIGN, INC.

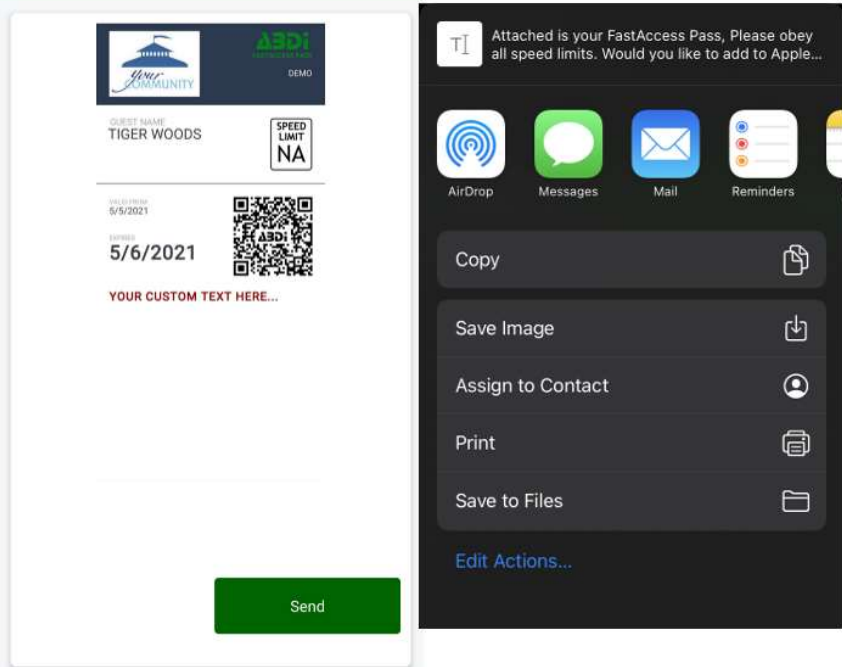

Access Control Systems for Gated Communities

	<p><u>Adding/Editing FastAccess Passes</u></p> <p>Residents can click on the guest's or vendor's name to edit their information and send a pass. The pass is sent by clicking the 'Share' button located next to the 'Save' button in the top right corner.</p>

Access Control Systems for Gated Communities

A system generated image of a pass with barcode can be sent via iMessage/MMS on the Resident's Smartphone. This pass is customizable

A "Digital Wallet Card" can be installed on recipient's Smartphone using the built-in Apple Wallet (for iPhone) or using a Smart Wallet app for Android (We recommend "Pass2U Digital Wallet" on the Play Store)

The location of your guardhouse is encoded within the card and it automatically appears on the lock screen of the guest when they are within close proximity to your gatehouse(s)
